

# Shared values

## Integrity

Like Stryker, Operation Smile does what's right. Operation Smile puts patients at the center of everything the organization does. Through listening to their perspectives, Operation Smile creates tailored approaches for reaching patients that are hardest to reach.

## Performance

With more than three decades of experience, Operation Smile has developed proficiency and expertise in the provision of surgical care in austere environments.

## People

Operation Smile has grown to be one of the largest volunteer-based organizations, currently conducting medical programs in more than 30 countries. Last year alone, Operation Smile's medical professionals donated over \$30 million in services and time.

## Accountability

Operation Smile's Global Standards of Care codify the standards by which the organization abides to deliver the best care possible, no matter where they are in the world.

# Making healthcare better with Operation Smile

Since the early 1990s, Stryker and Operation Smile have shared a vision to make health care better.

Stryker's corporate investments are **elevating** the skills of health professionals worldwide

### Rwanda surgical training rotation

Rwanda has only two plastic surgeons to serve a population of 12 million. Since 2015, Operation Smile and the University of Rwanda have partnered to provide specialized training in plastic surgery and anesthesia to residents.

### Cleft surgeon's training program

After residency, surgeons have few opportunities to learn more about cleft care. The Cleft Surgeon's Training Program provides surgeons with an individualized curriculum, mentorship and practical experience at medical missions.

### Stryker resident leadership program

Provided 240 medical residents with cross-cultural and field-based medical education opportunities.

### Volunteer skills training program

Extended training to more than 100 health care workers in Egypt and the Dominican Republic.

Stryker's product donations and discounts have been **instrumental** to Operation Smile's success

Stryker's significant discount to Operation Smile for the custom-designed Magee Instrument Sets has enabled the organization to provide life-saving care to thousands worldwide. More recently, Stryker's donations of Photon Blades and Colorado Needles could be found at Operation Smile programs in the Philippines, Rwanda, and Peru, helping surgeons to better see and perform in low-resource settings.

**Our shared dedication to the world's most vulnerable children has resulted in a global employee engagement initiative that promotes peer-to-peer fundraising.**

Together with Operation Smile, we are **making healthcare better** by funding innovative medical education programs and supporting medical missions.
